Conclusion:

The file containing 2nd & part bill has been submitted for th QA department on 24.02.2023 requesting for spot inspection. Engineers of QA/QC division have visite 27.02.2023.

During the inspection, engineer in charge of work informed that items found in the bill, have been executed the contractor & documents were made available by PMC team for inspection.

PMC team was instructed to assess the strength of concrete used for RCC Drain Wall (M20), Precast cover slab (M20) and Gradation & Bitumen content for Bituminous Concrete (Grade-II) on Asphalted road. The Rebound hammer test and Bitumen Content and Gradation Tests were conducted by PMC in presence of engineer in charge of work.

From the test results furnished by PMC consultants, it is concluded that the results of the samples collected are in accordance with the standards/ specifications mention in the IRC codes. However, the results submitted by the PMC have been reproduced here with for further needful action. The results checked by QA/QC relates only for item tested in the particular location randomly.

Further, QA/QC directs the PMC and Engineer in-charge of the work that all materials used for the work shall be inspected, tested and accepted as per the relevant specifications before incorporation in the work. The frequencies and methods of sampling and testing materials, including those required for definite purpose and not covered by MORT&H specifications shall be in accordance to the relevant IRC or BIS or AASHTO/ASTM/BS standards in order of priority.

All materials or work not conforming to the requirements of the specifications shall be considered unacceptable and rejected. The unacceptable materials or works that are rejected shall be immediately removed unless the defects are corrected and approved by the engineer in-charge of work.

This work was inspected on 01.02.2023 as per the request of engineer in charge of work when Asphalting work (BC Grade II) was under progress at 3rd main, Attur layout, Yelahanka new town. Further work progress / request for inspection was not intimated to QA division apart from the above-mentioned dates & now presently the bill submitted for the work. Therefore, randomly NDT (Rebound Hammer Tests) were conducted as explained in this report.

Engineer in charge of work shall ensure that Observations raised during inspection from QA division shall be complied (vide PR No CE/QA/PR/182/22-23 dated 09.02.2023) certified by competent authority of respective zone and necessary action to be taken accordingly & also to adopt observations/instructions for the work.

The concerned Engineer in charge of the work shall follow the direction issued by Chief Commissioner Letter number dated 01.08.2022 and 14.09.2022 and take necessary action as appropriate in accordance with the law.

Note: -

This report by QA/QC is pertaining to the work carried out in 2nd & part bill only. Therefore, further QA/QC reports shall be obtained for the items of work carried out in future Running Account bill / Final bill.

Safety precautions shall be taken at work spot to prevent any mishap, injuries or loss of life to general public and construction workers according to guidelines laid down in code of practices.

Engineer in charge of work shall obtain requisite approval and Implement traffic management plan prior to commencement of work.

Engineer in charge of work shall display details of work, work code, cost of project, start and completion date, and information of Engineer in charge of work with contact numbers at work spot.

Engineer in charge of work and Agency shall ensure that if any damages or defects occur pertaining to the executed work within the Defect Liability period (DLP) as per agreement .The same shall be rectified immediately on top priority without fail.
